Extract from Victor artists' contract

Every Victor Record is approved by the artist who made it The Victor Contract demands it

Not only must every Victor Record receive the approval of the Victor Recording Laboratory before it is listed in the Victor Record catalog, but the artist who makes the record must also be satisfied that it portrays his or her art with absolute fidelity.

When you play a Victor Record on the Victrola, you can be sure the interpretation you hear is exactly as the artist sang or played it—exactly as he or she wishes you to hear it.

So true to life in every detail that Victor Records have also earned for themselves the universal and enthusiastic approval of the great final judge—the music-loving public.
